The personnel of all civilian and military hospitals in the  
Olsztyn, Gdansk and Szczecin Voyevods have received instructions to  
be prepared for evacuation in not longer than 12 hours. All medical  
personnel - together with physicians - is required to have at the  
place of their work luggage containing their personal property so that  
they may travel at a moments notice.

The instructions do not cover the evacuation of the sick but do  
provide for the immediate transportation of all medical supplies,  
pharmacies, instruments, beds, and bed linen. What will happen to  
the sick in the event of evacuation of the hospital, the instructions  
do not say; neither does it give a definite location or direction  
in which the evacuation is to take place.
